

**THE DRESDEN VOLUNTEER FIRE COMPANY
14092 STATE ROUTE 22
CLEMONS, NY 12819**

April 12, 2010

Dear Residents and Friends,

It's time again for our annual fund drive. We have not requested a contract increase in the past six years so your generous donations are a significant factor in our ability to keep our firehouse running and our equipment repaired and updated. This year we will need to replace some communication equipment. Due to changes in radio frequencies, all pagers and apparatus radios will need to be upgraded. Obviously, in our area, radio communication is of utmost importance in our ability to keep our community safe. Since we provide automatic mutual aid to any emergency call in Hulett's Landing, better information transmission is imperative between the two departments. Hopefully, the new frequencies and updated equipment will make this possible.

We are also in need of active volunteers. Please stop by the firehouse any Tuesday at 7:00 PM if you would like more information. Whether you are interested in being a volunteer firefighter or in being involved with our fundraisers, we desperately need your help. We are planning a chicken barbecue on June 5th. This is always a fun day of social interaction between community members and friends. Hope to see you there!

PLEASE: SUPPORT US SO WE CAN SUPPORT YOU

Thank you,

Alan Bascue, Fire Chief
