Information Release

Release Date: September 16, 2009

To: Interested Parties (list attached)

Action by the Commission on Draft Stream Corridor Protection Regulations, which was scheduled for the September 22, 2009 meeting of the Lake George Park Commission, has been postponed to a future meeting.

Future Commission meeting dates are now being considered and will be posted on the Commission's website. Pending action on the proposed regulations will be announced beforehand through this distribution list.

As described in the Project Schedule, the next step is for the Commission to consider adoption of a Notice of Proposed Rulemaking which would authorize publication of the proposed regulations in the New York State Register. Publication of a Notice of Proposed Rulemaking will commence a public comment period and will include an announcement of the time and location of public hearing(s). Under the applicable procedures, the public hearing may not commence prior to 45 days from the date of the Notice. Notice of the hearing will also be provided through this distribution list.

Presently, the Commission is completing work on a Regulatory Impact Statement and other documents related to the State Administrative Procedure Act which will assist the Commission and the public in evaluating the potential cost impact of the regulations on the Commission, local government and regulated entities.
