

Important Announcement

In the past, we have given permission for trailers to be left on parts of our property. This year we can no longer allow this. If your trailer or boat is left unattended on any area of our property, it will be moved on or after June 15, 2009. Please make arrangements to store your trailer and/or boat on your own property or contact a local marina about summer storage. The multiple trailers make it extremely difficult to mow and have become an eyesore. Thank you for your cooperation in advance.
